

***At ORBYT Global Group, our corporate commitment to “Navigating the Future” defines our vision: to stay ahead of industry needs and deliver proactive, value-driven services to our customers across the globe.***

***This commitment goes beyond providing compliant equipment and expert advice in commercial shipping. It means strategically anticipating our customers’ evolving requirements and offering creative, reliable, agile, and knowledgeable solutions—saving them time, resources, and money while providing peace of mind.***

To ensure the consistent realization of this commitment, ORBYT Global Group has established and maintained a Quality Management System (QMS) in accordance with the ISO 9001 standard. The objectives of this system include::

- To provide immediate and effective, integrated solutions to projects that we undertake
- To make every effort to keep customers always satisfied
- To perform works only if we are able to and well trained to do so
- To work closely with our external providers to ensure the best possible outcome for our company and our customers.
- To correct the problems that arise and to prevent their recurrence.
- To constantly improve the working methods for the benefit of customers, our company and society.
- To monitor and contribute to the safety of ships and ports cooperating with the authorities and customers in strict compliance with international regulations, and customer and other requirements.

Top management is committed to achieving the objectives above and to continually improving the Quality Management System by providing staff with advanced training, an excellent organizational framework, suitable equipment, and other methods.

All personnel cooperate and participate for the guaranteed implementation of QUALITY within the Group. The efforts for continuous improvement of the quality are constant and the results are measurable.

This Quality Policy is communicated, understood, and applied at all levels of the ORBYT Global Group and is made available to all interested parties through appropriate internal and external channels.
